Our Sister Ships

Sailing in Comfort, Style & Safety aboard the Island Sky & Hebridean Sky

Island Sky and Hebridean Sky are truly sisters. Built in the same Italian Shipyard, both boast spacious, well-appointed suites, stylish common areas, and redundant core technology that allows them to operate smoothly, even under the most challenging of conditions.

Like most sisters, they each have distinct personalities and individual flair, but the strong bone structure and good breeding that they share are unmistakable.
